

Building Veneers

ROCKFORD[®]
ESTATE BLEND

BERKSHIRE[™]

Vanderbilt[®]
CLASSIC

Your beautiful home starts here.

Formed over 300 million years ago, Indiana limestone is a resource of international magnitude, a precious raw material that fires the design imagination and yields landmark structures not to be achieved with anything less.

Indiana Limestone building veneers bring the timeless beauty, distinction, and lasting value of natural stone to your home.

Random sized stones pattern

Consider mixing the split and tumbled look of Rockford to contrast smoother building materials

ROCKFORD[®]
ESTATE BLEND

Full Color Blend

Rockford Estate Blend[®] is a beautiful veneer of lightly tumbled genuine Indiana Limestone with a full range of natural color and sizes that will accentuate the dynamics of each individual application and architectural style.

Available in thin and full bed veneer.

Create a contemporary look with a bonded pattern

Ashlar pattern shown in four course heights

BERKSHIRE™

Full Color Blend

Buff

Berkshire™ is a solid, genuine natural Indiana Limestone split faced veneer. The variation of height courses creates a classic and pleasing random definition for both commercial and fine residential structures.

Available in thin and full bed veneer.

Vanderbilt[®]
CLASSIC

Full Color Blend

*

Standard Gray

Vanderbilt Classic[®] is a solid, genuine natural Indiana Limestone sawn veneer. The strong, clean look of real limestone is ideal for commercial and fine residential structures.

Available in thin and full bed veneer.

**Standard gray is only available in Vanderbilt Classic[®] full bed veneer.*
